

Raising the Standard IN CLINICAL RESEARCH.

Important Benefits for Your Study.

- Geographically diverse, integrated site network
- 12 Principal Investigators
 - 20+ Sub-Investigators
 - 36 Coordinators - 14 Certified
 - In-house call center and marketing department
- Clean, active database of more than 83,000 patients
 - Ages range from 6 months to 80+ years
 - Proprietary recruitment and retention ranking system
- Multi-specialty research sites
- Expedited study start-up processes
 - Central IRB
 - Central Lab
 - Budget negotiations – Same budget for each site
- Quick turnaround for regulatory documents
 - Protocol Liaison and Lead Coordinators work to complete start-up documents in 48 hours or less
- QA and Education/Training program for PIs, CRCs, and Call Center staff
- Single point of contact for each study
 - Streamlines communication
 - Enhances clarity
 - Reduces opportunities for miscommunication
- Robust governance structure includes:
 - Benchmark executive representative
 - Benchmark quality representative

Best Clinical Trial Site.

ViE FOR THE FIFTH TIME IN SEVEN YEARS,
Vaccine Industry Excellence AWARDS
Benchmark Research was named **Best Clinical Trial Site or Network** at the 2018 Vaccine Industry Excellence Awards, presented at the annual World Vaccine Congress in Washington, DC.

Raising the standard.™

Multiple Indications. Singular Results.

ACUTE CARE

ALLERGY

GENERAL MEDICINE

OBESITY

SMOKING CESSATION

VACCINES

WOMEN'S HEALTH

Setting the Bar in Vaccine Trials.

Since 2004, Benchmark sites have conducted **370+ phase I-IV vaccine trials** and enrolled a total of **35,500+ adult, elderly and pediatric patients**. As an industry leader in vaccine clinical research, we specialize in high-volume recruitment and retention of healthy and indication-specific vaccine study participants. The strategic locations of our six clinics have allowed us to build an extensive level of experience in seasonal and pandemic influenza, as well as in a vast array of other infectious and biodefense vaccine indications.

Sensitive to the needs of the industries we serve, Benchmark understands that every clinical research study we conduct can impact improved health, an enhanced care experience and a reduced cost of care for patients around the globe. Our standards reflect that understanding.

Experienced Physician at Each Clinic.

DR. LAURENCE CHU

Principal Investigator
Austin, TX

DR. WILLIAM SEGER

Principal Investigator
Fort Worth, TX

DR. MICHAEL COTUGNO

Principal Investigator
New Orleans, LA

DR. DARRELL HERRINGTON

Principal Investigator
San Angelo, TX

DR. GREG HACHIGIAN

Principal Investigator
Sacramento, CA
